

WED, JUNE 20 2-9

**After Market Party
Extravaganza! \$10**

We have an evening full of fun, sales and prizes. Everyone who attends will win a door prize--some prizes are better than others, but everybody wins. Please sign up in advance so we can better prepare.

We will tell you what we learned at Market, what will be coming into the shop over the coming months (clear into December), what new classes we will have, and other fun things.

Since we attended "School House Sessions" where we learned new things, we will have a few school house sessions for you, to learn new things. You will have a chance to buy at 20% off select stuff and a chance to order new patterns, fabric and books.

You can preview some of the items that will be sold and given as door prizes--they are in the old classroom, which is sometimes a place where you enter at your own risk. :) We still have a few things coming.

June 8, 2018

Learning to drive a smart car:

Minute 1: Richard had to show me where the touch button was to release the back hatch.

Minute 2: Richard pulled a lever and the back seats folded down by themselves. Very cool.

Next 10 minutes: Seat goes up, seat goes forward, seat goes back, seat tilts forward. Then I found the Seat #1 button on the door & pushed it. The seat readjusted itself to something fairly comfortable. There is a seat #2 button. I haven't tried that yet. Then I adjusted all the mirrors, no surprises there. So I started the car and drove around the parking lot & parked. I got the phone hooked up, found the cd slot and the audio screens. I put in a cd. Drove around the parking lot again. Located the air buttons, kinda. Found the headlights. Found the screen that allowed me to choose a voice for my car. I selected Samantha. Backed out of the parking space using the onscreen backup camera and successfully drove out of the parking lot.

Next 10 minutes: The car talks to me, telling me I have an email. I holler at it to ignore, figuring that was an appropriate response. Nothing. Then I found the button on the steering column that looked like someone was speaking. So I pushed that & tried again. "Ignore." The car replied that I had 4 choices: Read it, Ignore, Reply and something else. So I hollered, "Ignore." This went on for several minutes until the car recognized my command and then pulled up the next email. We did this for several emails until I decided to have it read me one. 3 or 4 miles later I began to suspect that the car might go through my whole inbox of 2,000+ emails. I wasn't sure how to stop this, so I pressed the home button on the screen. And that did it, although I'm not sure how to get back to the emails, not that I want to. Then I messed around with the audio, sending sound to the left, to the right & to the back. That was fun.

On the interstate: I discovered the lane lines button. If you drive outside the lines, the car beeps. Okay. I found the plus and minus speed & slow bars attached to the steering wheel, but wasn't sure why they were there. I get the "mode" set right for the air and adjusted the temperature. I discovered the lumbar button on the seat. I found the button that put a compass on the front panel. Cool.

38 miles later after pushing every other button I could find: I found cruise control. 15 more miles I discovered what assisted cruise control was all about, when my car slowed because it got too close to something in front of it. That's when I figured out what the + and minus bars on the steering wheel were really for. You can drive with your hands and not your feet.

Day 2: I found the off button for the air control. Don't laugh. It took me 3 years to find the cup holder on a previous Subaru. Later, I figured out how to find radio stations and to program my favorites. Soon after I figured out how to go back & forth between the radio and the cd player. At least I think I did. I hit several different buttons & screens so I'm not sure if I've found the correct short cut.

Today, day 3: I discovered the moon roof, usb port, a place to keep coins, and funky signs on my outside mirrors that I don't know what they do (although I suspect they'll tell me if a car is in my blind spot, but I'm not ready to test that yet). I'm still trying to figure out if the car locks itself or whether I have to push a button. The problem is, if you carry the keys, the car automatically opens. So in order to check to see if it locks by itself, I'll have to sneak up on it without the keys.

I have yet to read the manual. It's in the glove compartment. They had to build an especially deep glove compartment to house this manual, so I'm not that eager to dive right into it. I think I'll just keep pressing buttons.

Thanks to all who helped me out this week. And special thanks goes to Sandra from North Platte. She's been taking a drawing class at LCCC this week and has stopped by the shop. It's important to the story that she's from North Platte.

When I left my car in North Platte, I left several things in it: garage door opener, 6 cds, and my license plates. I was going to send a box with my car title to the repair shop & have them package up my stuff, get my car to a salvage place, give the title to the salvage guys, collect my miserly check for the car and mail everything back to me. Then I decided to drive to North Platte tomorrow and do it myself, which was actually a good idea because the poor guy that owns the repair place had a big fire and he's essentially out of business at the moment. So he has enough on his plate without having to run around & do my chores.

Well, as I was talking to Sandra I found out she & her husband were leaving for North Platte in the morning and they volunteered to help me out so I don't have to go to North Platte tomorrow.

Quilters and artists and singers are some of the nicest people you will ever meet. I am so grateful to all who have helped me. Thank you all so very much.

WHAT'S NEW!!

Hoffman Bucking Horse & Rider fabric is here! I have limited bolts, so don't wait too long to come in a get your fabric. As always, what I have is all there is for this year. I assume Hoffman will reprint, but I have not asked yet. If Hoffman reprints, fabric won't be available again until next May, so plan accordingly.

SIGN UP FOR LONG ARM

QUILTING CLASSES TODAY!

Classes are on Wednesdays and Saturdays in April: 10:30-1:30; 2:30-5:30, or 6-8:30. Check the calendar for April dates. Only 4 to a class.

Rentals have started for those who have taken the class. Tuesdays and Fridays, and a couple of Sunday rentals only for right now. Check the April calendar for rentals on Sunday. 2 rentals times per day: 10:30-2 and 2:30-6. \$25/hr or \$85 for 3 1/2 hours. \$50 minimum. Plus \$5/bobbin for thread. Most quilts (double and smaller), even for beginners, will take about 2 1/2-3 hours. We will discuss what you plan to do on your quilt and will help you estimate how long it will take.

Class descriptions follow the calendar, so keep scrolling. Classes are listed alphabetically.

**Beginning Quilting Thurs. starting Thus June 7 1-4 OR Sun June 10 1-4
8 weeks \$65 Barb Boyer**

This comprehensive 8-week course will introduce to you almost everything you need to know about piecing a quilt top. Along the way you will learn about color, batting, thread, machines and various techniques to give you the skills to make almost any quilt.

**Block of the Month First Sat of
month 10:30-11:15 FREE Barb
Boyer**

Join at any time. You get a free fat quarter if you come to class with the previous month's completed block. This year we're making a "modern" quilt. Something new, something different. I will provide some other options as we explore the modern quilt world.

Disappearing 9-Patch Wed July 18 Barb Boyer 10:30-5 \$20

Take 48 5" squares, plus some extra fabric, make 9-patches, cut apart & sew back together again and voila! you have a fun, quick quilt. You don't have to worry about biased edges with this one. This is another one of our summer fun quilts. Techniques to learn: What happens when you chop up a perfectly good 9-patch!

English Paper Piecing Club 4th (or last) Mondays 2-4 Barb Boyer \$20

English paper piecing dates back to the early 1800s. It is a hand sewing method that uses paper templates to help sew complex angles together, like hexagons. Any number of different designs can be made, including Grandmother's Flower Garden-this is the pattern I am STILL doing this year. Several patterns will be available, including traditional Flower Garden and the Downton Abbey free pattern.

Hand Applique/Back Basting Wed As scheduled Sandra Freeburg \$25

Back basting is a template free method of needle turn applique. No slippery freezer paper or chalked lines on top that never seem to get turned under quite right. This method is especially great for traveling, because your pieces will be basted onto your background -- no need for pins to get in the way. This class is great for beginners and all levels of appliquers. Don't let hand applique frustrate you. It's really easy and relaxing!

Hand Embroidery Club 2nd Sat. of the month, 10-noon FREE Kathy Sconce

If you want to learn to hand embroider or just brush up your technique, join us on the second Saturday of the month from 10 to noon. You can work on your own projects or you can join the project we are doing. This year we are following a purchased pattern called My Crazy Life. It is wool appliques on flannel backgrounds. Then we will explore a variety of embroidery stitches to embellish each block-4 six inch blocks per month (or whatever you choose to do), for a total of 48 blocks. Each month Kathy Sconce shows us a new stitch to try, plus, she guides us through thread choices, how to knot, fabrics to use, and tracing techniques. We will also discuss wool, felted wool, wool felt, various threads for embroidery, various techniques for the wool applique and setting options for the quilt.

Hand Quilting Wed As scheduled Sandra Freeburg \$25

Hand quilting is an art that should not be lost. By the end of Sandra's class you will be hand quilting with confidence. Everyone has at least one special quilt that calls out for hand quilting. And there is nothing better than the feel of a hand quilted quilt. Do yourself a favor and learn this art that connects us to our past -- our mothers, grandmothers and great grandmothers.

Hunter Star, the easy way, Sat June 16 10:30-5 Barb Boyer \$20

The Hunter looks complicated, but with the fast & easy tool, it's a snap. We are getting beautiful collections that I bought specifically for this class. If you are looking to learn a new technique, this is a great quilt for that.

Jelly Roll Race Barb Boyer Sat July 21, 10:30-5 \$20

Using 1 2 1/2" strip set (you need 40-48 strips) plus fabrics for borders, you can stitch this colorful quilt in less than an hour. I'm kidding. You can't get the borders on. Okay, I'm kidding. But most can get the inside sewn in about 4 hours. But it is a race and I throw some extra fun into the class. This is a great quilt to use to practice your long arm machine quilting! And it is easy. You can add borders or leave as easy. This is another one of our summer fun quilts. Technique to learn: sewing strips together on diagonal without drawing your lines.

Knit Pickers' Club 2nd Wed of each month, 6-8:30 Carol Moler

Every second Thursday, we're getting together to practice our knitting. The Club is open to all skill levels. We want to share what we've learned, find new patterns,

and simply just sit and knit. This year we are doing a knit along project involving 6" squares. Each month we will learn a different pattern (or 2), make it into a square and eventually put all the squares into one project-afghan, scarf, bag, etc. Join us & learn some new stitches!

Long Arm Quilting Classes Wednesdays in April & May from 10:30-1:30, 2:30-5:30 or 6-9 and Barb Boyer \$30 (check calendar for times & dates)

In this class you will learn all about the Nolting long arm quilting machines: loading, threading, quilting. I'll demonstrate how to load and thread, set stitch length, change tension, wind and load bobbins. Then I will load a practice quilt onto the machine and show how to do hand guided quilting. Each student will be given at least 15-20 minutes of practice time. (Each class is limited to 4 students). You will be able to do free hand quilting plus you can practice following a pantograph. Any quilter who wants to rent to machines must take this class first, regardless of whether you have experience on a long arm machine. This class is not designed to teach you everything there is to know about long arm quilting-it's just a start.

**Monthly Minis First Saturday of the Month, Feb-Dec.
4-6 FREE**

This year we are going to do the Great Pumpkin Quilt, a purchased pattern. It will start in February because we are still finishing last year's Holiday Houses in January. Starting in February we will work on the Great Pumpkin quilt. We will plan to do 2 blocks a month, and do the top banner section over two months. In class we will discuss use of color in the backgrounds and pumpkins. We will also discuss and learn various machine applique techniques to use on the blocks.

Nine patch Snowball Quilt Sue Frerich Sat July 28, 10:30-5 \$20

Learn how to the 9-patch block + snowball block turns squares into circles. We will teach the block in one size, but offer other sizes of blocks that are also suitable for 2 1/2" pre cut strips. If you need a quick western quilt, baby quilt, 30s reproduction quilt--this one makes up quickly. This is another one of our summer fun quilts. Technique to learn: How to make the corners of snowballs to the 9-patch seams.

**One Block Wonder Panel Quilt
Sat April 28 & May 12 & 26 see
calendar for times
\$30 Sue Frerich**

For all of you who missed the class before, you don't want to miss this class-we won't have it on the schedule again for awhile. The

technique is called One Block Wonder and you need 7 panels for the quilt. Sue used a beautiful eagle print (keep your fingers crossed, we may be able to get 1 bolt). But we have lots of interesting panels that would make a fantastic One Block Wonder Panel Quilt. (I'm looking at the Star Wars panels....). The technique used is similar to a Stack & Whack quilt, but the difference is in how it is sewn together. This is truly a stunning quilt. You don't want to miss this class!

Spoon Quilting As scheduled Sandra Freeburg \$25

No more sore fingers! Learn to Spoon Quilt, with a special spoon quilting tool. This tool helps you keep your stitches tiny and even without pricking your finger. Need to have basic quilting skills (rocking motion quilting).

Summer School Sessions Barb Boyer \$5 June 9 (Sat), 11 (Mon), July 9 (Mon), 14 (Sat), classes at 1 p.m., 2 p.m., 3 p.m. & 4 p.m.

We are holding refreshed classes, called Summer School, that last 1 hour each. At 1 p.m., we will teach how to put on borders; at 2 the class will be on half square triangles, including how to measure, how to cut, the math involved and how to square up; at 3 the class will be on quarter square triangles; and at 4 the class will be on flying geese, how to cut, sew and square. So if you need a refreshed on one or more of these techniques, each class is only \$5 and lasts 1 hour. The classes are scheduled on Mondays and Saturdays (generally the second Monday and Saturday from June through August). Class is demo only; you don't need to bring anything but yourself.

Window Squares Sat June 23, 10:30-5 Sue Frerich \$20

Frame your square with a rainbow of colors, and a stripe border and you have a cute sunshiny quilt! You can add novelties in your squares, keep them low volume or make the polka dots. It's a quick & easy quilt. We call it Window Squares, because the quilt is hanging in our front window! This is another one of our summer fun quilts. Technique to learn: piano key border.

Zig Zag Barb Boyer Sat June 30, 10:30-5 \$20

Using 1 2 1/2" strip set (you need 38 strips) plus fabrics for the sides, you can stitch this colorful quilt in an afternoon (especially if you have all your strips cut & ready to go). You can add borders or leave as is. This is another one of our summer fun quilts. Technique to learn: How to keep track of all the colors.

Nolting Longarm Machines

Nolting has 5 main machines, each with different reaches: from 17" to 30" depending on the machine. They are sold with or without a frame,

but after I saw & helped set up one of the steel frames this week, I recommend buying the frame. All machines, except for the Standard-- the most economical machine-- have a stitch regulator. I recommend a stitch regulator. All machines can be equipped with a computer and there are a couple of different ones to choose from. In addition, you can get an extended table base so that you can use rulers, you can get larger bobbins on some of the models and on the frames you can get hydraulic lifts to raise and lower the tables. In the coming weeks, I will print out more information on each model.

The best entry level machine is the Fun Quilter. It comes in 17", 20" & 23" reach. It comes with the Intellistitch Equalizer stitch regulator, standard speed control, needle up/down, and fixed handles in the front & rear. This machine can also be equipped with a computer.

The Pro Machine has the Intellistitch Turbo stitch regulator, single stitch option, standard speed control, needle up/down and customizable handles in the front & rear. The Pro Machine comes in 20", 24" and 30" reach with 10-12" of inside height. There are easy dials on the front to set stitch length and other options. This machine can also be equipped with a computer.

The NV Machine is the newest in the fleet of Nolting machines. This machine has a touch screen with programmable stitch regulation. You can stitch in 4 different stitch modes plus single stitch and needle up/down. It also has an adjustable brightness LED work light. This machine can also be equipped with a

computer.

Nolting also has a commercial machine with the Intellistitch Equalizer stitch regulator, standard speed control, needle up/down, and fixed handles in the front & rear. This machine can also be equipped with a computer.

HAND EMBROIDERY CLUB

If you want to learn to hand embroider or just brush up your technique, join us on the second Saturday of the month from 10 to noon. We use printed patterns and some vintage free patterns that you can embroider, embellish and color. Depending on the projects, each month Kathy Sconce shows us a new stitch to try, plus, she guides us through thread choices, how to knot, fabrics to use, and tracing techniques.

Knit Pickin' Club

This is another get-together class to sit & knit, work on our projects, share information and get some help. We will share techniques, suggest patterns, but mainly we'll sit & knit (or pick).

Toad Toters

On full moon days (as noted in the calendar) you will get 20% off all purchases (not otherwise discounted) that you can fit in your bag. You must bring your bag to participate.

Full Moon Days: Jan 1, Jan 31, March 1, March 31, April 29, May 29, June 28, July 27

Discount Policy

We will honor only one discount -- whichever is largest. You can't combine a 10% with a 25% discount to get a 35% discount. On this we can't be bribed."

Color of the Month

January purple; February red, March green, April yellow; May neutrals: whites & beiges; June brown; July Blue

Join the fun and come feel the difference of quality fabrics.

Happy quilting!

Sincerely, Barbara Boyer
